LETTER FROM THE BOARD CHAIR

2023 was a momentous, very busy year at ABPM.

First, it afforded us a time to reflect on ABPM's history – and its future – as we celebrated ABPM's 75th anniversary. Our festivities culminated in an anniversary gala cruise on Lake Michigan, showcasing Chicago's skyline (as shown on the cover of this report). The Board of Directors was honored to celebrate the occasion with former Board members, colleagues, and friends from our partner specialty associations.

In January 2023 we launched ABPM's new Continuing Certification Program (CCP). ABPM is transitioning to the new program in three phases; the first phase began in 2023 and runs through the end of 2024. I am happy to report that nearly 85% of all current diplomates have already shown their commitment to lifelong learning and improvement by actively participating in the first year of the CCP.

As part of the transition to the CCP, the ABPM convened its inaugural Longitudinal Assessment Program (LAP) item-writing subcommittees this summer. Each subcommittee, made up of practicing physicians certified by ABPM, is charged with developing LAP content for a preventive medicine specialty or subspecialty. They are already hard at work writing, reviewing, and revising questions in preparation for 2025, when ABPM will launch the LAP pilot for all

specialties and subspecialties. Their dedication ensures ABPM's LAP offers valuable learning opportunities to our diplomates.

Also this year, ABPM continued its advocacy for its specialties and subspecialties and the physicians who practice them; prepared to cosponsor a new subspecialty in Healthcare Administration, Leadership, and Management (HALM); made strides towards DEI goals; presented at conferences; and much more.

Importantly, at the end of this report you will see an impressive list of all the volunteers who have contributed their knowledge, skills, and time to work with us towards ABPM's goals. The ABPM is more than its Board and its staff – it takes a host of dedicated volunteers, who write exam and LAP questions, update exam content outlines, and review certification exam applications, to fulfill ABPM's mission. If you are a current Diplomate of the ABPM, have a passion for your preventive medicine specialty or subspecialty, and are interested in getting involved, please consider joining us as a volunteer.

This is just a taste of what we've been up to at ABPM in 2023. I hope you'll read the rest of this report to learn more!

All the best,

Wendy E. Braund, MD, MPH, MEd, FACPM
Chair, American Board of Preventive
Medicine

OUR MISSION & PURPOSES

MISSION

The mission of the ABPM is to:

- Certify physicians practicing in a specialty and/or subspecialty of preventive medicine and to extend and support development of those Specialties and Subspecialties; and
- Extend, encourage, and enhance the study and the standards of practice, and advance the cause of preventive medicine and the ABPM.

PURPOSES

The purposes of the ABPM are as set forth in its Certificate of Incorporation, and include the following:

- Establish and maintain high standards in preventive medicine including the specialty and subspecialty areas of Aerospace Medicine, Occupational & Environmental Medicine, Public Health and General Preventive Medicine, Addiction Medicine, Clinical Informatics, Medical Toxicology and Undersea and Hyperbaric Medicine, and other related medical specialty areas;
- Develop and administer examinations and otherwise evaluate physicians applying for Certification and Continuing Certification in preventive medicine, its specialty and subspecialty areas and other related medical specialty areas;
- Grant and issue Certificates or other recognition of knowledge and skills in preventive medicine and its specialty and subspecialty areas and other related medical specialties and to suspend or revoke the same when appropriate; and
- Enhance, encourage and engage in programs and practices related to the improvement of diversity, equity, and inclusion of all ABPM Diplomates.

2023 HIGHLIGHTS

For the latest news from ABPM, check the ABPM website at www.theabpm.org and follow us on [LinkedIn](#).

ABMS APPROVES NEW SUBSPECIALTY IN HEALTHCARE ADMINISTRATION, LEADERSHIP, AND MANAGEMENT

In March 2023, the American Board of Medical Specialties (ABMS) approved the newest subspecialty in Healthcare Administration, Leadership, and Management (HALM).

The ABPM is a co-sponsoring board of HALM, along with the American Board of Anesthesiology (ABA) and the American Board of Family Medicine (ABFM). The American Board of Emergency Medicine (ABEM) is the administrative board of the subspecialty and will offer the first certification exam in HALM in 2024.

HALM certification through the ABPM will be open to current ABPM Diplomates. [Find details and the eligibility requirements here.](#)

ABPM CLARIFIES ADDICTION MEDICINE AND CLINICAL INFORMATICS PRACTICE PATHWAY REQUIREMENTS FOR PHYSICIANS WITH AOA AND CANADIAN PRIMARY SPECIALTY CERTIFICATION

Based on stakeholder feedback, in August 2023, the ABPM clarified practice pathway requirements for the ABPM's initial certification exams in Addiction Medicine and Clinical Informatics.

The ABPM's practice pathway in Addiction Medicine and Clinical Informatics is open to physicians who, in addition to meeting all other requirements, possess current primary specialty certification through the American Osteopathic Association (AOA), the Royal College of Physicians and Surgeons of Canada (RCPSC), or the College of Family Physicians of Canada (CFPC).

Beginning in 2024, ABPM will accept reference letters from physicians certified by the AOA, RCPSC, or CFPC in support of Addiction Medicine or Clinical Informatics practice pathway applications. Previously, ABPM only accepted reference letters from physicians certified by an ABMS member board.

Learn about certification eligibility requirements at www.theabpm.org/become-certified/.

ABPM UPDATES ITS INTEGRATED TRAINING EXPERIENCE (ITE) GUIDELINES

At its August 2023 interim Board meeting, ABPM updated its guidelines for ITEs, supporting training programs and physicians who plan to seek dual certification.

ITEs are dual-training programs that allow an individual resident or fellow to complete training in two residencies, two fellowships, or a residency and a fellowship simultaneously. While ITEs do not truncate or reduce training time in an ABPM specialty or subspecialty, the ITE prepares a physician to sit for the initial certification exam in both specialty and/or subspecialty areas for which the ITE was designed.

The updated guidelines ensure that physicians engaged in an ITE receive the training required to be eligible for ABPM certification exams. The updates include:

- Training programs must submit ITE proposals to ABPM at least 60 days prior to the date the physician plans to begin the ABPM-sponsored training. ABPM cannot review an ITE program if the physician has already started the ABPM-sponsored training.
- Block diagrams submitted as part of the proposal must be in a format that is materially consistent with the ACGME sample block diagram current at the time of submission of the proposed ITE. These updates allow ABPM to review programs thoroughly before a physician begins training.

Find additional information about both ITEs and combined training programs, including guidelines and application forms, at <https://www.theabpm.org/become-certified/integrated-training-experiences-and-combined-training-programs/>.

ABPM RELEASES UPDATED OCCUPATIONAL AND ENVIRONMENTAL MEDICINE AND PUBLIC HEALTH AND GENERAL PREVENTIVE MEDICINE EXAM CONTENT BLUEPRINTS

The ABPM released updated content blueprints for both the Occupational and Environmental Medicine (OEM) and Public Health and General Preventive Medicine (PHGPM) exams. The new blueprints will go into effect with the 2024 certification exam cycle.

To ensure the blueprints reflect the current practice of OEM and PHGPM physicians, ABPM solicited the input of ABPM-certified physicians working in these specialties. In addition, practice analysis task forces made of ABPM-certified subject matter experts were instrumental in reviewing and updating the blueprints.

[Read the full announcement here.](#)

ABPM WORKS TOWARD DEI GOALS

ABPM designated its DEI Task Force as a full Committee that will be fully staffed and begin its formal role in calendar year 2024.

Also this year, the DEI Task Force engaged a consulting firm who conducted a survey of all stakeholders, including Diplomates, board members, society leadership, and staff, regarding DEI issues. The results revealed slightly better-than-average feedback from ABPM constituents compared to similar organizations conducting a baseline survey. ABPM looks forward to making additional progress towards increasing diversity among its board members and Diplomates, as well as equity and inclusion in its practices.

Dr. Joseph Dervay, President of the Aerospace Medical Association (AsMA), makes a special presentation to Dr. Wendy Braund, ABPM Chair, and Mr. Christopher Ondrula, ABPM's CEO, in recognition of ABPM's 75th anniversary.

ABPM CELEBRATES 75 YEARS WITH ANNIVERSARY GALA

ABPM's Board and staff were pleased to welcome former board members, specialty society representatives, and other friends and colleagues to a very special evening in ABPM's hometown, Chicago.

Guests boarded the motor-yacht Chicago Elite, where they enjoyed dinner and a presentation by Dr. Duncan Hughes, the Chief Medical Officer of Virgin Galactic and an ABPM Diplomate certified in both Aerospace Medicine and Occupational and Environmental Medicine. They were also treated to a grandiose fireworks display from Navy Pier! ABPM is thankful to Willis Towers Watson for its generous financial support of ABPM's anniversary celebration.

ABPM'S FIRST 75 YEARS

ABPM expanded from a small group of certified Public Health physicians in 1948 to a diverse group of well over 10,000 physicians certified in three specialties and four subspecialties. ABPM owes its growth to the talented, thoughtful, and hard-working physician leadership it has enjoyed through its history - and to the exceptional physicians who make up its Diplomate community.

In celebration of ABPM's 75th anniversary, the ABPM is pleased to share a visual history of ABPM's significant milestones and accomplishments. View the slideshow at <https://www.theabpm.org/abpm-1948-2023>.

Sketch found on the back of Dr. Ernest Stebbin's copy of the American Board of Preventive Medicine and Public Health (ABPMPH) Statement of Organization and Draft Constitution and Bylaws. ABPMPH was renamed the American Board of Preventive Medicine (ABPM) in 1948. Dr. Stebbins was ABPM's first Secretary/Treasurer.

STRATEGIC PLAN UPDATE

In 2023, ABPM entered the second year of its current five-year plan, approved by the Board of Directors in August 2021.

From 2022 through 2026, ABPM is focusing on five major priorities:

1. Administration of Initial Certification Exams;
2. Development, launch, and maintenance of the Continuing Certification Program (CCP);
3. Enhancement of the visibility and awareness of Preventive Medicine specialties and subspecialties;
4. Advocacy for and promotion of the value of ABPM board certification; and
5. Pursuit of excellence in organizational administration and governance.

2023 PRESENTATIONS

Ms. Marzena Marciniak at the 2023 ASAM Conference.

- ABPM Chair, Wendy E. Braund, MD, MPH, MEd, FACPM, presented "American Board of Preventive Medicine Update" at the Preventive Medicine 2023 Residency Directors' Workshop. (March 2023)
- ABPM CEO, Christopher J. Ondrula, JD, presented "ABPM Update" at the Preventive Medicine 2023 conference. (March 2023)

ABPM REACHES 2023 STRATEGIC MILESTONES

- ✓ Conduct inaugural Longitudinal Assessment Program (LAP) subcommittee item-review meetings
- ✓ Obtain ABMS Continuing Certification Committee (3C) approval for LAP
- ✓ Reach 1,000 LinkedIn followers
- ✓ Launch stakeholder engagement strategy
- ✓ Develop and launch staff onboarding, development, and retention strategies
- ✓ Obtain ABPM Board of Director's approval of annual budgets

- ABPM's Addiction Medicine Sub-Board Chair, Michael Weaver, MD, DFASAM, and Mr. Ondrula presented "Becoming Certified in Addiction Medicine through the ABPM" at the American Society of Addiction Medicine's (ASAM) 54th Annual Conference. (April 2023)
- ABPM's (former) Continuing Certification Manager, Mr. Kevin Patrick, presented "The ABPM Certification Process: Updates on Initial Certification and the New Continuing Certification Program (CCP)" at the 2023 American Occupational Health Conference. (April 2023)
- Dr. Weaver presented "Becoming Certified in Addiction Medicine through ABPM" at the ASAM Review Course. (June 2023)
- Mr. Ondrula presented "ABPM Year-End Report," at the Accreditation Council for Graduate Medical Education (ACGME) Residency Review Committee Meeting. (November 2023)

2023 APPLICATIONS & EXAMS

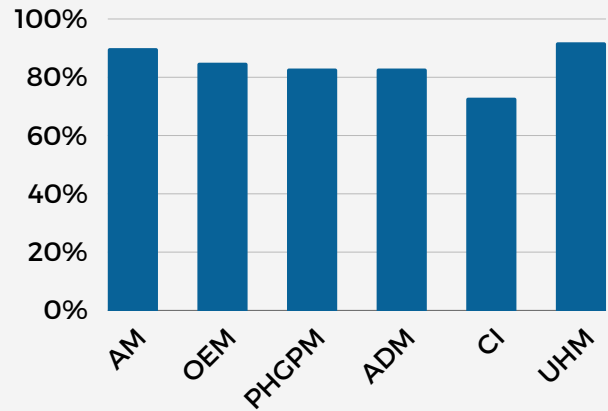

In 2023, ABPM received 1,073 applications for its certification exams. Continuing the trend of recent years, subspecialty exam applications outpaced applications for specialty exams: slightly more than 80% of all applications submitted to ABPM in 2023 were for either the Addiction Medicine or Clinical Informatics subspecialty certification exams.

ABPM launched a brand-new online application platform in 2023. The new platform offers a more streamlined experience for applicants and helpful features for ABPM staff.

ABPM collected feedback on the new platform and other aspects of the application process through its annual applicant survey. Applicants reported that the new platform easy to use and overall satisfaction with ABPM's application process. Based on specific suggestions from applicants, ABPM is improving its communication and eligibility requirements descriptions for future applications.

2022 Specialty & Subspecialty Initial Certification Exam Pass Rates

1,004 candidates registered for ABPM's initial certification exams in 2023:

- Aerospace Medicine (AM): 29
- Occupational & Environmental Medicine (OEM): 72
- Public Health & General Preventive Medicine (PHGPM): 116
- Addiction Medicine (ADM): 517
- Clinical Informatics: 270

The Undersea and Hyperbaric Medicine certification exam is administered only in even-numbered years.

ABPM Exam Registrations, 2013-2023

CONTINUING CERTIFICATION

SIMPLE. RELEVANT. INNOVATIVE.

You asked. We answered.
INTRODUCING THE NEW CCP!

No high stakes.
Lots of support.

Visit www.theabpm.org
to see how your certificate is affected.

CONTINUING CERTIFICATION PROGRAM (CCP) UPDATE

In January 2023, ABPM launched the new, innovative Continuing Certification Program (CCP). The CCP was developed in compliance with the new Standards for Continuing Certification mandated by the American Board of Medical Specialties (ABMS). ABPM created the CCP in response to feedback from ABPM Diplomates, who wanted a simpler but more meaningful program and who overwhelmingly preferred an innovated alternative to the traditional, high-stakes, point-in-time maintenance of certification (MOC) exam.

To ensure a smooth transition to the CCP, ABPM is introducing the new program in three phases.

Learn about the CCP and find answers to frequently asked questions at <https://www.theabpm.org/continuing-certification-program-ccp/>.

LONGITUDINAL ASSESSMENT PROGRAM (LAP) PILOT UPDATE

The ABPM concluded its initial, two-year LAP pilot for Clinical Informatics Diplomates on March 31, 2023.

During the pilot, participants answered Clinical Informatics-specific questions: twelve in each six-month segment.

Based on the feedback received from the LAP pilot, ABPM will develop the next phase of the LAP pilot for all ABPM diplomates, launching in January 2025. Clinical Informatics diplomates offered feedback on a number of aspects of the pilot – and ABPM listened! Among their recommendations was to remove the time limit to answer each question, which will be implemented in the 2025 LAP launch.

Get updates on the ABPM’s LAP at <https://www.theabpm.org/longitudinal-assessment-program-lap-pilot/>.

Over the summer, six LAP subcommittees convened to create, review, and revise the questions for each of ABPM’s specialty and subspecialty LAPs.

The subcommittees are dedicated to producing an LAP that encourages and supports diplomates in their pursuit of excellence in their chosen field. Find a list of our valued LAP volunteers at the end of this publication.

If you are a current ABPM diplomate and are interested in working with an LAP subcommittee, contact ABPM staff at abpm@theabpm.org.

DIPLOMATE STATISTICS

ACTIVE CERTIFICATES AS OF JANUARY 1, 2023

As of January 2023, 52% of current ABPM certifications were in a specialty while 48% were in a subspecialty.

GENDER

Time-Limited Diplomates (certified 1998 or later)

Non-Time-Limited Diplomates (certified before 1998)

While only 18.7% of current Diplomates who were certified before 1998 are women, nearly 36% of Diplomates certified in 1998 or later are women.

ETHNICITY

With the transition to a new online Physician Portal platform, ABPM is able to track many types of data that were previously unavailable, including ethnicity. It is important to note that diplomates report their ethnicity and gender on an entirely voluntary basis.

The self-reported ethnicity data represented on the graph includes responses from 3,000 diplomates, about 23% of all current diplomates. Approximately 6% of the responding diplomates preferred not to specify their ethnicity.

FINANCIAL STATUS

Find additional details on ABPM's financial status at www.guidestar.org where our required filing as a nonprofit organization (Form 990) is posted.

INCOME

In 2023, ABPM ranked:

- 15th of the 24 ABMS Member Boards as measured by total Diplomate population size*;
- 16th as measured by revenue, exclusive of investment income;**
- 15th as measured by total cash, savings, and investments.

ABPM has established and continues to maintain a stable financial foundation to sustain its mission and goals.

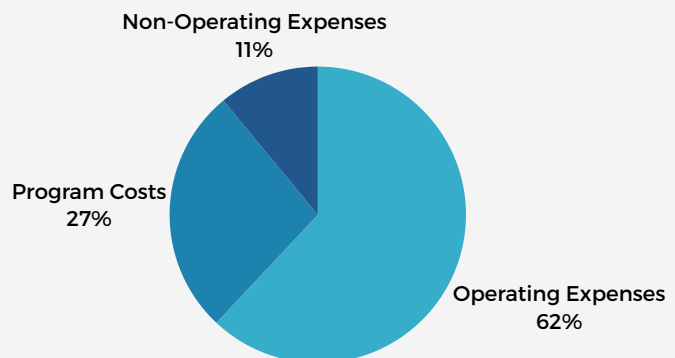

EXPENSES

In 2023, ABPM ranked 21st of the 24 ABMS Member Boards in terms of staff compensation as a percentage of revenue (excluding investment income).**

ABPM's prudent financial management allows it to prioritize improving and maintaining its programs for applicants, Examinees, and Diplomates.

For 2024, the ABPM will continue to invest in programs for its Diplomates, specifically the LAP pilot, continuing improvements to its online physician portal, and updates to its website.

*According to the 2022-2023 ABMS Board Certification Report

**Per the most recent IRS Form 990 filed by each ABMS Member Board

[^]ABPM administered its final MOC exams in 2023.

BOARD OF DIRECTORS UPDATES

ABPM WELCOMES NEW DIRECTORS TO ITS BOARD

ABPM was pleased to welcome two new members of its Board of Directors at the August 2023 meeting.

Paul “PJ” Jung, MD, MPH, FACPM, and David C. Miller, DO, MPH, FAsMA, were elected as Directors on ABPM’s Board in January 2023. They attended the August 2023 meeting as observers and began their terms immediately upon the conclusion of the meeting.

Dr. Paul “PJ” Jung

Dr. Jung has held numerous positions throughout his career, including Director of the Division of Medicine and Dentistry in the Health Resources and Services Administration; Public Health Investigator with the House

Committee; Medical Officer in the Office of the Surgeon General; and Associate Director of the Peace Corps.

In his role on the Board, Dr. Jung hopes “to help ensure that our specialties maintain high standards for new physicians as well as continuing certification for experienced physicians.”

Dr. David C. Miller

Dr. Miller is the Program Director for the Residency in Aerospace Medicine at the USAF School of Aerospace Medicine at the Wright-Patterson Air Force Base in Ohio. He is also clinical teaching faculty for the Family Medicine Residency at Wright State University in

Dayton, Ohio.

Dr. Miller has been a valued participant on ABPM’s Core Exam Subcommittee since 2019 and is a member of the Accreditation Council for Graduate Medical Education (ACGME) Review Committee for Preventive Medicine.

“Aerospace Medicine garners great interest and excitement from around the world. Our specialty continues to identify and tackle expansive challenges in ways that were on the edge of imagination when our specialty began,” Dr. Miller noted. “It remains critical for our specialty to preserve and continuously improve training, and maintain a high standard to obtain certification.”

Read our interview with [Dr. Jung here](#) and our interview with [Dr. Miller here](#).

ABPM THANKS CHERYL LOWRY, MD, MPH, AND CHRISTOPHER SULLIVAN, MD, MPH, FOR THEIR SERVICE TO THE BOARD

Cheryl Lowry, MD, MPH, and Christopher D. Sullivan, MD, MPH, completed their terms on ABPM's Board of Directors at the conclusion of the Interim Board Meeting in August 2023. Drs. Lowry and Sullivan played critical roles at the Board during a time of both rapid growth and unique challenges.

Dr. Cheryl Lowry

Dr. Lowry is a passionate advocate for Aerospace Medicine, and is tireless in her efforts to uphold high standards for the physicians caring for pilots, astronauts, and others in austere environments. Her thoughtful

contributions enlivened and enriched Board discussions.

Dr. Christopher Sullivan

Dr. Sullivan's principled leadership on the Board has been invaluable. As a board member, he was uncompromising in his dedication to the Board's mission

As Secretary/Treasurer, he upheld

the Board's reputation for fiscal responsibility and financial sustainability.

Both Dr. Lowry and Dr. Sullivan are valued members of ABPM's exam subcommittees, serving on the Aerospace Medicine subcommittee and Core Preventive Medicine subcommittee, respectively.

HEATHER O'HARA, MD, MSPH, APPOINTED AS CHAIR-ELECT OF ABPM'S BOARD OF DIRECTORS

Dr. Heather O'Hara

At its Interim Board Meeting in August 2023, ABPM elected Heather O'Hara, MD, MSPH, FACOEM, FACPM, as the Chair-Elect to the ABPM's Board of Directors. Dr. O'Hara will serve in this role until the conclusion of the Interim Board Meeting in August 2024. At that time, she will assume the position of Chair of the Board of Directors.

Dr. O'Hara maintains ABPM certification both Occupational and Environmental Medicine and Public Health and General Preventive Medicine. She has been a member of the ABPM's Board of Directors since 2019, representing Occupational and Environmental Medicine.

[Read the announcement here.](#)

MICHAEL WEAVER, MD, APPOINTED TO GOVERNING BOARD OF TEXAS PHYSICIAN HEALTH PROGRAM

Michael Weaver, MD, DFASAM, was appointed to the Governing Board of the Texas Physician Health Program (PHP) in July 2023.

The mission of the Texas PHP is to ensure patient safety and uphold high standards in medical care. It serves Texas physicians who are experiencing substance use disorders, physical illness and impairment, and/or psychiatric conditions by offering a variety of services before, during, and after treatment.

Dr. Weaver is certified in Addiction Medicine and serves on ABPM's Board of Directors as its At-Large Sub-Board Member. He is also Chair of ABPM's Addiction Medicine Sub-Board.

Dr. Michael Weaver

ABPM TO SEEK NOMINATIONS FOR PUBLIC MEMBER POSITION ON THE BOARD OF DIRECTORS IN 2024

ABPM will issue a call for nominations this summer for the Public Member position. The Public Member ensures the interests of the public and patients are taken into account in Board discussions and decisions. If you or a colleague meet the criteria to be a great Board member, please contact ABPM at abpm@theabpm.org.

PUBLIC MEMBER QUALIFICATIONS

The Public Member must:

- be a non-physician resident of the United States or Canada;
- have a highly regarded reputation for ethical behavior, integrity, and competence;
- be recognized in their field of expertise;
- be collegial, open-minded, and possess good leadership and communications skills; and
- have experience in one or more of the following: preventive medicine, public health policy, medical education, assessment, certification, advocacy, quality and performance measures, patient safety, healthcare law, communications, finance, or other areas that complement the ABPM's mission and purposes.
